SIEMENS

Data sheet 6GF9001-1BU01

product type designation	**extension ring set 3 parts**
product description	Set of intermediate rings with rings from 0.5 mm, 2 x 1 mm
	intermediate ring set 0.5 2x1 mm rings; 31 mm diameter with C thread for screwing in between lens and camera for pictures in close range.

Technical Product Detail Page	https://i.siemens.com/1P6GF9001-1BU01
suitability for use	Intermediate rings with C-mount connection technology for screwing in between the lens and the camera for close-up images
suitability for operation	for MV440
design, dimensions and weights	
height	2 mm
diameter	31 mm
standards, specifications, approvals	
reference code	
● according to IEC 81346-2:2019	UQB

Security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
