SIEMENS

## Data sheet 6GK1901-0RP10-0AA0

| | |
|---|---|
| **product type designation** | **FO LC Coupler** |
| product description | LC coupling |
| | FO LC Coupler plastic enclosure; for mounting in 19" module frame 1 pack = 5 units. |

| | |
|---|---|
| Technical Product Detail Page | https://i.siemens.com/1P6GK1901-0RP10-0AA0 |
| suitability for use | LC coupling for use in 19" module frame or in IE FC RJ45 Keystone enclosure |
| **interfaces** | |
| design of the optical interface / for network components or terminal equipment | LC |
| **mechanical data** | |
| material / of the enclosure | plastic |
| **design, dimensions and weights** | |
| type of cable outlet | 180° cable outlet |
| width | 14.7 mm |
| height | 22.4 mm |
| depth | 36 mm |
| net weight | 40 g |
| **ambient conditions** | |
| ambient temperature | |
| • during operation | -20 ... +70 °C |
| • during storage | -20 ... +70 °C |
| • during transport | -20 ... +70 °C |
| relative humidity / at 25 °C / without condensation / during operation / maximum | 95 % |
| protection class IP | IP20 |
| **product features, product functions, product components / general** | |
| product feature | |
| • silicon-free | Yes |
| **standards, specifications, approvals** | |
| certificate of suitability | |
| • RoHS conformity | Yes |
| • cULus approval | No |
| reference code | |
| • according to IEC 81346-2:2019 | KGC |

**security information**

| | |
|---|---|
| security information | Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7) |
