SIEMENS

## Data sheet 6GK5980-3BC00-0AA5

| | |
|---|---|
| **product type designation** | **connecting cable RS232, M12 plug / D9-sub socket** |
| product description | Preassembled serial cable with M12 and RS232 connectors |
| | Serial cable M12/RS232; Pre-assembled serial cable with M12 and RS232 connector; Length 3 m; 1 pack = 1 unit. |

| | |
|---|---|
| Technical Product Detail Page | https://i.siemens.com/1P6GK5980-3BC00-0AA5 |
| suitability for use | Suitable connecting cable with M12 connectors and a 9-pin SUB-D socket for connection to the serial interface of the PC |
| wire length | 3 m |
| **electrical data** | |
| number of electrical connections | 2 |
| **mechanical data** | |
| number of electrical cores | 3 |

| **security information** | |
| security information | Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7) |
